Keri Wright is the consummate CEO with extensive domestic and international aircraft trading, leasing, aviation finance, technical, and deal-making experience. As a seasoned airline industry veteran focused on asset management, leasing, sales, distribution, capital generation and revenue growth. Keri is a decisive leader with the persistence, dedication and track record of delivering exceptional results and seamless customer service in a demanding global marketplace and through a variety of economic conditions. Her name is globally recognized as member of the elite who's who of the worldwide airline industry.

Primarily as Chairperson and CEO, Keri successfully provided vision and strategy for Universal Asset Management (UAM) and all company subsidiaries for over a decade. Serving as liaison with investors and partners of large portfolio aircraft assets in the UAM fleet, she was responsible for management and oversight of UAM's finances, investment strategy and financial growth, including the allocation of resources. Skilled in troubleshooting operational challenges, when necessary, and providing strategic plans for efficiencies and growth, Keri has the ability to transform companies through the most trying of times. UAM enjoyed year-over-year record-breaking growth and profitability during her tenure & ownership.
